### **Fugro-Jason Expands Presence in Mexico**

New office opens in Veracruz, Mexico

**June 8, 2009—Houston, Texas** – Fugro-Jason, the leader in reservoir characterization technology, today announced the opening of a new office in Veracruz, Mexico. This office will support on-going and future projects throughout the country. Fugro-Jason has been operating in Mexico for more than ten years and is expanding to meet the demands in the region.

“This new office puts us closer to many of our clients,” said Carlos Spindola, Business Manager Mexico. “We will now be able to work even more collaboratively with them to achieve their goals.”

#### **About Fugro-Jason**

Fugro-Jason is dedicated to delivering innovative products and services to help our clients identify and produce hydrocarbon deposits by integrating information from the various geoscience disciplines. Fugro-Jason applications make it possible to integrate geological, geophysical, geostatistical, petrophysical and rock physics information into a single consistent model of the earth. The application of Fugro-Jason’s technology, either through use of the software or through our consultancy services, substantially improves returns on E&P investments by adding invaluable reservoir model information that reduces the risks, costs and cycle-times associated with exploration, appraisal and field development and production.

[Fugro-Jason](#) is a unit of [Fugro NV](#). Fugro was founded in 1962, and is listed on Euronext NV, Amsterdam, the Netherlands. Fugro has more than 13,500 staff and a permanent presence in over 50 countries.
