FOR IMMEDIATE RELEASE

Fugro-Jason Hires Global Sales Manager

New position to ensure efficient sales operations across the globe as company grows

February 1, 2011—Houston – Fugro-Jason, a leader in reservoir characterization technology for the oil and gas industry, announced that Mike Eyre has joined the company as Global Sales Manager. He is responsible for aligning global sales operations with corporate strategy, performance development, and application of technology to aid sales. He is also involved in strategic planning for sales and marketing, along with introducing new products.

According to David Graham, Fugro-Jason's Manager of Operations, "Mike brings a wealth of experience in sales, marketing, and supporting systems that will help us continue to be responsive to our clients and efficient in our operations as we grow."

Eyre brings more than 20 years of sales leadership and marketing experience, many of which were spent in upstream oil and gas. Prior to joining Fugro-Jason, Eyre was Founder and CEO of Apollo Sales & Marketing Group, a Houston-based consulting firm. Since 2003, the firm has worked with software companies serving the oil and gas market, including Schlumberger Information Solutions and Merrick Systems. Eyre's additional experience includes positions at companies including Cardonet, Excara, i2 Technologies, Quad Systems and Universal Computer Systems.

"Fugro-Jason provides outstanding expertise and technology throughout the seismic to simulation workflow and is well-positioned for continued growth," said Eyre. "That growth demands a focus on tight alignment of sales and marketing, plus strategic technology deployment to keep the company efficient and delivering significant value to every client. I am excited about contributing to these efforts."

About Fugro-Jason

Fugro-Jason (www.fugro-jason.com) delivers innovative software products and services to help clients identify and produce hydrocarbon deposits by integrating information from the various geoscience disciplines. Fugro-Jason software applications make it possible to integrate geological, geophysical, geostatistical, petrophysical and rock physics information into a single consistent model of the earth. Applying Fugro-Jason's technology through its software and consulting services substantially improves E&P investment return by adding invaluable reservoir model information to reduce the risks, costs and cycle-times associated with exploration, appraisal and field development and production. Fugro-Jason is an operating company of Fugro NV. Fugro was founded in 1962 and is listed on Euronext NV, Amsterdam, The Netherlands. Fugro has more than 13,500 staff and a permanent presence in more than 50 countries.
