

Fugro-Jason

is introducing the

Jason Geoscience Workbench 7.0

New software technology

- Improved simultaneous AVO inversion algorithms
- Analysis of full pre-stack data
- Direct access to standard G&G project databases
- And much more

New consultancy services technology

- Completely new, revolutionary probabilistic inversion technology
- Polar anisotropy compensated global simultaneous AVO inversion
- Reservoir Characterization & Modeling (RC&M™) services

Want to know more?

Visit us at the EAGE 2004,

booth #422

See you in Paris, France

JASON

#1 in reservoir characterization
